2. In units having common water and electric services, the wastewater charge will be made a part of the utility bill for water. The commodity and capacity charges will be based on the water consumption and the service charge will be computed by multiplying the number of units which have wastewater service, times the service charge.
3. “Unit” shall mean a single dwelling unit (i.e., an apartment, a condominium, or a mobile home), a single shop or business establishment, or an industrial establishment. Each guest-room of a hotel, motel, hospital, nursing home, or dormitory shall be considered ½ unit.
